Las propuestas de este plan de clases acompañan el fascículo 2 de [Estudiar y aprender en casa. 7.º grado](#) para los/las alumnos/as. En esta semana, proponemos leer y escribir acerca de sus actividades diarias, su vida social y personal, sobre todo enfocadas en sus vínculos de amistad. Empezaremos leyendo sobre los hábitos de un par de amigas pertenecientes al mismo grupo etario que los/las alumnos/as. Se plantea también una actividad de escritura, en la que se los/las guía para que describan a su propio/a mejor amigo/a, tanto en términos de su apariencia física y de personalidad como en relación con sus gustos y preferencias.

1. In quarantine times we can't visit our friends. So, we miss them, don't we? Let us talk about some of the things friends do together. Meet Camila and Mora. They are best friends.

Everyday, Camila and Mora wake up early in the morning, have breakfast and generally walk to school together. They enter school at 8.00 am. They are in 7th form and they are very good students. Camila likes Maths and Science. Mora is interested in the Arts and enjoys English and Art classes a lot. They always help each other with the school tasks and have lots of fun together at breaktime.

After school, they usually get their bikes and go cycling, sometimes with other friends too. On Fridays, they often have tea at Camila's house because Dora, Cami's mum, makes delicious cakes and cookies and they really love them.

2. Read the text again about Camila and Mora. Tick (✓) TRUE or FALSE in the boxes.

Volvé a leer acerca de la rutina de Camila y Mora. Poné una tilde (✓) en VERDADERO o FALSO. Mirá el ejemplo.

Skating Their Way to Success

Education

What do kids learn from skateboarding?

Skateboarding is a popular sport. Kids all over the world enjoy skateboarding. Skateboarding can even help kids do better in school.

Kids who skateboard learn to have patience. They don't give up. We see this when skateboarders learn new tricks. They practice a skateboard trick again and again. Finally, they learn the trick. Kids can do the same thing in school. They can have patience and never give up.

Jerry Carrera and Maria Ramblaz have a skate park in Los Angeles, California. They also have an after-school program called Skate-4-Education. Skate-4-Education is for kids ages 8 to 15. The program helps skateboarders do well in school. At Skate-4-Education, students get help with their homework. After they finish their homework, they can use the skate park. Skate-4-Education also gives students points for studying. Kids trade points for prizes, like T-shirts and skateboards.

Schools are also starting skateboard programs. Skate Pass is a program where students skateboard in gym class. And Oasis Skateboard Factory is a school that's only for skateboarders!
